CYBERSECURITY FOR PROSECUTORS
ARE YOU PROTECTED?
GET YOUR CYBERSECURITY REPORT CARD

THE DEVASTATING EFFECTS OF CYBERATTACKS
Cyberattacks are a critical threat to prosecutor offices, and the results of an attack can be shattering. Everything a prosecutor office does can be denuded in an instant.
Prosecutor offices maintain highly sensitive data. In many cyberattacks, criminals steal data and post it online as part of their scheme to earn illicit profits.
EXAMPLE: 2022 ATTACK IN SUFFOLK COUNTY, NY

MITIGATING THE THREAT
Experts from Prosecutors' Center for Excellence will assess your vulnerabilities and provide next steps for improving your office's cybersecurity.

PCE'S CYBERSECURITY REPORT CARD WILL HELP YOU TO:

- **Assess** the current state of your cybersecurity.
- Understand the relevant legal and ethical requirements for **data security**.
- Facilitate **collaboration** with Information Technology partners.
- Develop a cyber-safe office **culture**.
- **Connect** with low-cost resources.
